

ASTARO MAIL ARCHIVING DATASHEET

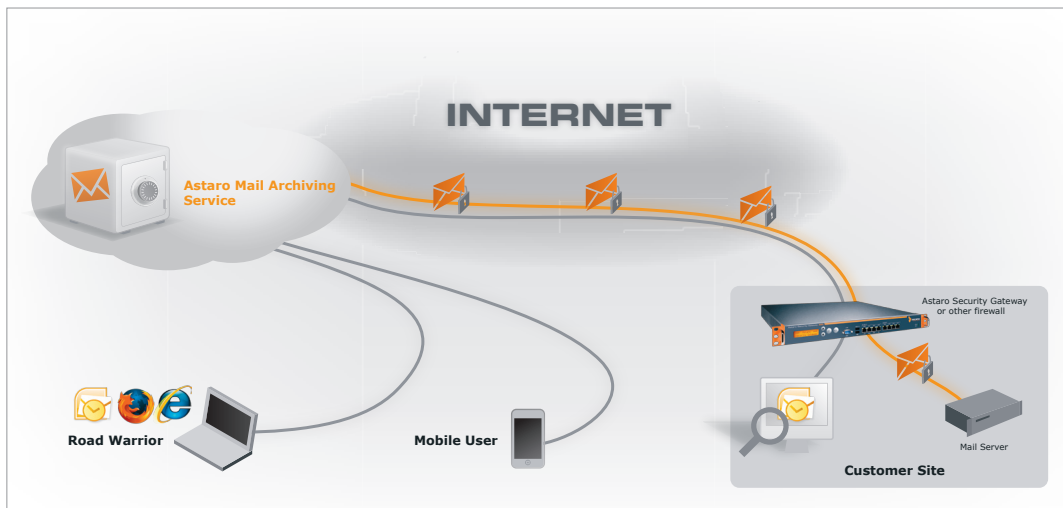

Make Archiving Your E-Mail Our Problem

Every business is facing legal or industry compliance regulations leading to the requirement to archive e-mails – a challenging task for all IT administrator! E-mail volumes are still growing, causing mail servers to suffer from the heavy load and forcing end-users to struggle with mailbox full warnings. Astaro solves this by offering a cloud-based e-mail archiving service that is easy to setup, accessible from everywhere and scales with your growth.

Join Now!

Benefits

- › Setup your archive in less than 15 minutes
- › No more „mailbox full“ hassles
- › Find e-mail instantly with Outlook Archive Search
- › No employee training needed to access their personal archive
- › Meet compliance rules
- › No hardware maintenance and upgrade

COMPLY

Secure Archive

Store all e-mails and attachments encrypted and digitally signed on our servers.

Unlimited Retention Time

Keep all e-mails as long as you like or must—define a retention policy suitable for your business.

Auditing

4-eyes e-mail discovery and audit logging for a transparent and traceable audit process.

OFFLOAD

Unlimited Storage

Avoid scalability issues through unlimited storage in the archive.

PST-File Import

Personal archive files can be uploaded into the archive. Centralization at no additional cost.

Zero Administration

Reliable cloud service frees administration resources—no updates, no hardware maintenance, no backup.

FIND

Fulltext-Search

All e-mails and attachments are indexed and accessible through a google-like search.

Outlook Plug-in

Seamless Outlook integration makes searching the archive as easy as writing an e-mail.

Web Search

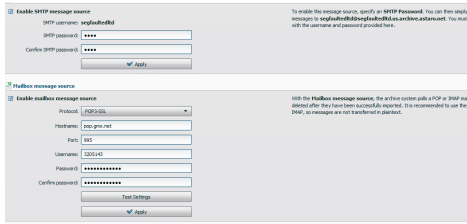

Users can search and access their e-mails from everywhere through a centrally hosted webportal.

„Since we implemented the Astaro Mail Archiving Service, I am able to delete many more e-mails as the archive system works in the background—taking the load off my inbox. The fast and effective e-mail search is by far my favourite feature through the Outlook plug-in.“

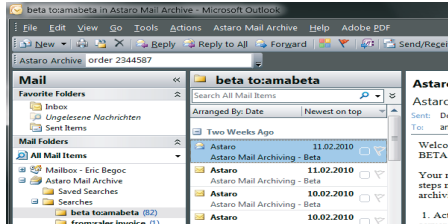

*Andreas Kuchenbuch,
